"I commissioned Benjamin for our wedding last year. My wife and I were so thoroughly impressed with his work that we, quite literally, cannot find enough words or superlatives to thank him. His preparation for the event was flawless; his manner with the guests and the execution throughout the day was exceptional. He has created an album that we will cherish for a very long time to come. We have absolutely no hesitation in recommending this fine British Photographer." March 23, 2010

Michael Denoon-Slater

Hired Benjamin as his wedding photographer in August 2009

"Benjamin impressed me after the first photo shooting of our exclusive product, Gala Dinner on the Stage of the State Opera. Furthermore, the first set of photos delivered, sent to our main clients, brought a fantastic increase of requests and confirmed events for the product, which never happened in the past. I will continue to work closely with Benjamin, as the results of his fantastic talent are in line with our group's philosophy of creating strong emotions through excellency." March 29, 2010

Bogdan Manta – Director of Communications and Marketing, [Zatise Catering](#)

Hired Benjamin as a corporate photographer from February 2010

"If you've ever had a chance to review Benjamin's work, you would've recognized its craftsmanship immediately. Whether it's the works from Southeast Asia or Prague, panoramic landscapes or highly detailed close-ups, you can see something of the artistic quality in the work. His portraits alone stand-out and I believe will single him out to be worthy of collection. And I am sure one of his works will speak to you. But what you don't see is the service that comes with the work. Benjamin fusses over the final product and delivery. He wants to know where it will hang, what the light quality will be in the room, what is the ideal frame for your needs, the right glass, the color and dimensions of the border... you get the idea. He cares tremendously. A rare commodity. If you take a liking to any of his work, which I believe you will, I heartily recommend taking the next step and contacting him. You won't be disappointed." "We thought we didn't need a wedding photographer and could just make do with photos from friends and family, partly because we didn't want the intrusion of a photographer spoiling the intimacy of our wedding. Thankfully we changed our mind. Benjamin was completely brilliant - he fit in absolutely with the atmosphere of the day and was totally unobtrusive and discreet - yet managed to get fantastic shots of everyone and all the key moments and captured the spirit of the day completely. We've put together an album of his shots; framed quite a few and ordered several for family and friends so it's the gift that keeps on giving. We're so delighted he was there to do such a brilliant job".

Victoria & Tom

Hired Benjamin as their wedding photographer in December 2009

"Benj and I have worked together on various projects such as product and wedding photography. His relentless energy is amazing especially when I begin to tire after a solid 12-hour shoot - he just keeps going! He is a joy to work with and keeps not only myself but also his clients amused throughout the shoot. His quirky style is an absolute winner with the clients, and his amazing eye makes his photographs symbolic and memorable. His charm radiates through his work, which is a rare gift. I have absolutely no hesitation in recommending him." March 30, 2010

Patricia Rodwell

hired Benjamin as a Photographer in 2009

"I am happy to provide a reference for Benjamin who was recommended to me by a trusted friend. He was asked to spend the evening at my 40th birthday taking photographs of family and friends in a prestigious London club. He took group and individual pictures together with interesting backgrounds and stylish additions! The quality of his pictures were superb and he managed to capture individual's inner character which is often difficult unless the photographer makes himself unobtrusive – this Benjamin managed to the highest degree. Not only was the quality of his work of a very high standard but his whole demeanour and organisation of the evening was painless, he was incredibly organised and efficient from beginning to end. I highly recommend Benjamin to anyone seeking a professional photographer with that added *'je ne sais quoi'*. Should you need further information then please don't hesitate to contact me."
