Benjamin Arthur • Wedding Photography Packages

Introduction

Thank you for enquiring about wedding photography services from Benjamin Arthur Photography.

Your photographs are the most enduring reminder you have of the emotion, excitement, glamour and love that is all around on each and every wedding day. That's why you need to choose a wedding photographer you can trust.

I am a photographic storyteller and my approach to your wedding will reflect this; candid, reportage style shots taken with the minimum of fuss. I like to blend in to the background as much as possible at the wedding so that you, your family and guests can get on with savoring each and every moment of your special day.

I will shoot a minimum of 500 photos but I don't put any maximum limit on the number I take through the course of the day because spontaneity is everything in photographic storytelling. Once home I get to work quickly on artistically editing and enhancing your photos to the highest possible standard. My goal is always the same; to capture the story of your day, so when you look back on it in years to come you will remember it as if it were yesterday.

Before your wedding day we will have a pre-wedding meeting at a mutually convenient time. This will be very informal and should take no more than an hour of your time. We will talk about your overall expectations from the photographs and your needs in terms of pre-wedding, group shots, location shots (if desired), church service wishes etc. Parents are more than welcome at this meeting!

The 4 packages you see outlined here are all designed with you in mind, with an option to suit every pocketbook. Once you've been through them, please take a look at the additional information included in the sections entitled 'Album Options' & 'The Small Print'.

References • A small Selection

"We commissioned Benjamin for our wedding last year. We were so thoroughly impressed with his work that we, quite literally, cannot find enough words or superlatives to thank him. His preparation for the event was faultless; his manner with the guests and the execution throughout the day was exceptional. He has created an album that we will cherish for a very long time to come. We have absolutely no hesitation in recommending this fine British Photographer."

Michael & Caroline

"We thought we didn't need a wedding photographer and could just make do with photos from friends and family, partly because we didn't want the intrusion of a photographer spoiling the intimacy of our wedding. Thankfully we changed our mind! Benjamin was completely brilliant - he fit in absolutely with the atmosphere of the day and was totally unobtrusive and discreet - yet managed to get fantastic shots of everyone and all the key moments and captured the spirit of the day completely. We've put together an album of his shots; framed quite a few and ordered several for family and friends so it's the gift that keeps on giving. We're so delighted he was there to do such a brilliant job".

Victoria & Tom

"Benjamin took our wedding photographs for us. We'd been previously impressed by his work but were amazed by both his hard work and professionalism on the day and the amazing results he achieved. We've been blessed with some truly artistic pictures from our day and so many beautiful pictures. On the day he was incredibly helpful, calming and friendly to the bride, myself and all the guests he interacted with. It's not really possible to describe how happy we were with his work, I honestly can't think of any way he could have done a better job."

Mike & Lindsay

"Benjamin was the photographer at our wedding in December. He provided an excellent service all round: it was an evening wedding so the conditions were probably quite difficult, but the results were great. He was discreet and professional throughout the service and reception, and his follow-up product was of a very high standard. I would thoroughly recommend him."

Album Options

Introduction

A beautifully produced photograph album is the most tangible record you will have of your special day so it's important to get it right. With my wedding album service, you will become the "creative director" of your album and I your producer. If you want to create an album with me I am delighted to offer two basic packages for albums– the Asscher & the Solitaire – using two of the finest suppliers of wedding albums from the UK.

These companies cover a range from the classic wedding album design of [Lydden](#) to the much more contemporary feel of [Kiki James](#).

Please take a moment to look at the next few slides (or simply follow the links) to consider the type of album you would like; size? colour? hard or soft leather? personalized? Lydden albums contain 58 pages. Kiki James albums have 50 pages. I can produce a mix of enlargements and smaller, standard sized prints for you depending on your wishes.

Which ever album you choose I will have it ordered for you and then personalized as you want, working with you to produce a record of your day that delights you or your loved ones every time you open the first page. Don't just take my word for it! Consider these nice words from one of my clients;

"I've finally got to see the album. It's fantastic; you really have done something outstanding here. Caroline and I will treasure this for the rest of our lives." (Michael, married August 2009)

Lydden Albums • option 1

Lydden (lyddenalbums.co.uk) have been making handmade traditional photograph albums in Dorset for over twenty years. They are the best I've found – and the best value.

Each album is covered in leather cloth and gold tooled English leather hide corners and spine and marble endpapers. These albums provide up to 58 pages of top quality acid free 1250 micron mounting board.

They offer their albums in 4 colours – Green, Red, Blue & Burgundy and offer landscape and portrait versions. Each format has 3 sizes to choose from. You may also personalize your album with initials, names or dates on the front cover and the spine to give them that extra special touch, (see next page).

Lydden Albums • Album Personalization Information

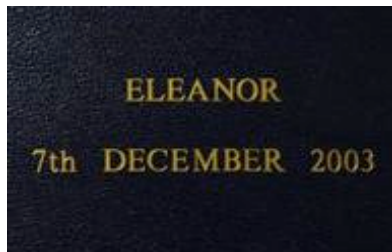

Lydden albums offer embossing in two different places – the front cover or the spine of the album.

They emboss **only in gold** lettering.

They also offer a choice of two fonts; 36pt Rockwell light & 24 pt Times Roman.

Their recommendation is to go for the Rockwell light 36 point font for their larger albums (30x40 / 28x35 or 40x30 / 35x28 cm).

See below for examples;

Rockwell Light

If you wish to have your album(s) embossed please just let me know which font, where and what the embossing should say and I will arrange everything for you.

What does it cost?

Embossing with Lydden costs £1.00 per character on the front and £1.50 on the spine.

Kiki James • option 2

The Kiki James (kikijames.com) Tuscan wrap leather photo albums are an artistic take on the traditional leather photo album. Handmade in England from premium Italian bridle leather they have a soft and tactile feel and will age gracefully over time. Inside each album every high quality page is interleaved with acid free parchment tissue paper, which will protect your photographs through the years. The albums can be individually personalised (see next page,) using traditional embossing techniques as well as professionally gift-wrapped. Customers can choose from silver, gold or blind (a colourless indentation into the leather) personalisation and owing to the smooth nature of this leather the blind option works extremely well.

The Tuscan wrap leather albums are available either in Square or Portrait formats.

Square – 34x34 cm / 50 pages / 100 sides. Available in black, chocolate or tan bridle leather;

Portrait – 30x24 cm / 50 pages / 100 sides. Available in black, chocolate, dark tan or natural bridle leather

To do this, first choose the product you would like to buy, and I'll guide you through the process. Every item can be embossed with initials, names, dates or a combination of your choice. - 2) **Silver** - for a contemporary look, an increasingly popular choice. Wording is indented into the leather using silver foils.

- 3) **Gold** - a classic, timeless choice. Wording is indented into the leather using gold foils.

However, if you have any preference regarding one or the other then please inform me and I will keep in mind during the editing process.

ONLINE VIEWING

Regardless of which of the 4 packages you choose, your photos will be logically organised and available to view online in 'Story of the Day' & 'Reserve' albums.
